Dear Professor,

We are undergraduate students, recently have read your paper, titled "On automated prepared statement generation to remove SQL injection vulnerabilities". In this paper, you proposed an algorithm for prepared statement replacement.

We will be very thankful if you share your codebase with us to improve the algorithm. We only use this codebase for research purposes.

Sincerely,

Mohammed Latif Siddiq,

Dear Mohammed Latif Siddiq,

To the best of my knowledge, the attached project is the final version from 2007.

Best Regards,

Stephen Thomas
